1. Purpose Statement

The principal purpose of the *Affordable Housing – Building Permit and Planning Fee Equivalent Grant Policy – Repair and Renewal* is to assist affordable housing proponents with the repair and renewal of existing affordable housing stock. The policy provides assistance to eligible applicants by reducing property improvement costs through the provision of grants equal in amount to fees/costs related to development and building permits, demolition permits, and variance applications.

An application must be made to the City for a grant to be disbursed under this policy. Grants will be awarded according to criteria outlined in section ‘5. Grant Evaluation.’ Payment will be made upon successful completion of the approved work, to the satisfaction of the City.

2. Application

This policy applies to existing developments with affordable units; existing developments with sleeping units for rooming houses, or for transitional housing or supportive housing in the forms of assisted living facilities or residential care facilities; or existing emergency housing.

3. Definitions

Affordable unit means a residential dwelling unit that is rented at 80% or less of the Median Market Rent (MMR), as defined by the latest Canada Mortgage and Housing Corporation (CMHC) annual Rental Market Report. An affordable unit may also include a dwelling unit that is otherwise deemed affordable through another provincial or CMHC program.

Development means ‘development’ as defined in the *Community Planning Act*, SNB 2017, c 19.

Emergency housing means a facility providing temporary, short-term accommodation for homeless individuals and families, including but not limited to homeless shelters. The facility may or may not offer

other services such as providing food, clothing, or counselling. Emergency housing is short-term accommodation for people experiencing homelessness or those in crisis.

Sleeping unit means a room used or intended to be used for sleeping, or for sleeping and living purposes, which may include a sink or a washroom, but does not include cooking facilities. There may be shared washroom and/or cooking facilities located outside the sleeping unit.

Supportive housing means housing that provides a physical environment that is specifically designed to be safe, secure, enabling, and home-like, with support services such as social services, provision of meals, housekeeping, and social and recreational activities to maximize residents' independence, privacy, and dignity.

Transitional housing means housing that is intended to offer a supportive living environment to its residents, including providing them with the experience, tools, knowledge, and opportunities for social and skills development to increase independence. Transitional housing is considered an intermediate step between emergency housing and supportive housing, and has limits on how long an individual or family can stay. Stays are typically between three months and three years.
