

 M O N C T O N	POLICY	Owner Department: Water and Wastewater
	Maintenance of Private Hydrants Policy	
Effective Date: February 20, 1995	Last Reviewed Date: January 29, 2020	
Approving Authority: Moncton City Council	Replaces No.: Replaces Policy 1510	
1. Purpose Statement		

The purpose of this Policy is to ensure that private fire hydrants are operational, and also to protect distribution system water quality by ensuring that fire service lines are flushed.

2. Application

This Policy applies to all owners of private fire hydrants.

3. Definitions

Private Fire Hydrant: A fire hydrant located on private property, including industrial, commercial, and institutional properties.

NFPA: National Fire Protection Association

4. Policy

This Policy is administered by the Water Services Department and the Moncton Fire Department, Fire Prevention Division.

Owners of private fire hydrant systems must inspect, test, and maintain their hydrants at least once per year according to NFPA. Results of inspection, testing, and maintenance are to be submitted to the City of Moncton - Moncton Fire Department, Fire Prevention Division.
