

2005 INDUCTEE

Dr. Daniel **DE YTURRALDE**

Builder - Sports Medicine

Serving as one of four doctors for Canada's 1994 Olympic team at Lillehammer, Norway was one of the highlights of Dr. Daniel de Yturralde's sports medicine career. But there have been many other milestones for the orthopedic surgeon, who has worked with the Montreal Alouettes, the Moncton Wildcats, Université de Moncton's Aigles Bleus and many other teams. A member of the Canadian Association of Sports Medicine, the Moncton doctor has also had a long association with the sport of figure skating.
