

2023 INDUCTEE

MONCTON WILDCATS

(2005–2006)

Team – Hockey

The LHJMQ Moncton Wildcats won their first Presidents Cup in 2006 – the championship trophy of the Quebec Major Junior Hockey League. They were also recipients of the Jean-Rougeau Trophy – awarded to the regular season champion before heading to playoffs. Following their LHJMQ win, the Wildcats hosted the Memorial Cup – becoming the second city in the maritime division to host this prestigious event. While the team lost in the finals, they were celebrated by the community for their hard work and dedication to the series. The team played 70 games with 52 wins, 107 points, 357 goals and eventually saw 10 of its players drafted to the NHL. This set a new precedent for the Moncton Wildcats as a team with the capacity to play like champions!
